## UK NEQAS for CSF B2 TRANSFERRIN / BETA TRACE PROTEIN

Distribution : 184

July 2018

Participant : 91339

67 out of 75 participants returned data for this distribution. 89% response rate.

### Nil Responses

10070, 14492, ORG, INFO, CODEX, ORG\_G, NOKLUS, YVSOLAB

**Sample 184-1** was an experimental sample that did not contain asialo transferrin or beta trace protein.

**Sample 184-2** was a cerebrospinal fluid (CSF) sample.

Sample	Designated Response	Your Response	Score	OMIS
184-1	Negative	Negative	0	0
184-2	Positive	Positive	0	0
The current window of analysis comprises the previous six distributions			<b>Total MIS</b>	0

### Comments

Sample 184-1:

64/66 participants reported sample 184-1 as negative for beta 2 transferrin/beta trace protein, this included twenty five laboratories using a nephelometric method. One laboratory did not submit a qualitative response for this sample.

Sample 184-2:

57/66 participants reported sample 184-2 as positive for beta 2 transferrin/beta trace protein, this included twenty four laboratories using a nephelometric method.
